

Military Personnel in Harford County During the Korean War, 1950-1953

Compiled by
Henry C. Peden, Jr. (2022)

Caveat: Due to the significant number of military personnel assigned to Aberdeen Proving Ground and Edgewood Arsenal during the Korean War, this listing is inherently incomplete. This is partly due to the fact that the government ordered newspapers in 1951 to stop publishing lists of draftees and inductees. Be that as it may, they were still allowed to publish information about individual service men and women as events unfolded during the war, such as promotions, marriages, awards, medals, and wounded, missing or killed in action, as well as assignments and reassignments. In early 1953 only one draft list appeared in the paper and a truce was signed a few months later. Names of soldiers were gleaned from articles in The Aegis and a list of 55 veterans who attended a reunion in Havre de Grace in 2000 compiled by Donald F. Trout. Many of the more than 4,000 soldiers in the following list were not from Harford County, but they were assigned here during the war. Draftees and inductees after the truce was signed on 23 Jul 1953 have not been included. Any omissions and misspellings are purely unintentional.
